
ABOUT SEQOLA AND MICROSOFT DYNAMICS

Seqola specialises in the supply and implementation of Microsoft Dynamics business solutions to suit medium and growing businesses. With the implementation of Microsoft Dynamics 365 Business Central/Nav (Navision), Microsoft Dynamics GP (Great Plains) and Microsoft Dynamics CRM (Customer Relationship Management) we help you to realise the full potential of your business.

Seqola (formerly Reach Analytics) is a dedicated provider of enterprise-wide business solutions, with experience with Microsoft Dynamics 365 and GP across many industries dating from 1992.

So why choose Seqola?

- Knowledge and experience: With clients in the distribution, marketing, non-profit and public authority sectors, we provide specialised Microsoft Dynamics services, particularly in trouble-shooting, providing tailored training that achieves a business result, and finding innovative solutions to business problems and issues.
- Creating customer relationships: We work with you to create and deliver a cost-effective solution. We take the time to listen to you and your individual needs and deliver a business solution that meets these needs.
- Support services: We offer a range of support services, by phone, remotely via the internet, and onsite support. Our Dynamics engagements have included clients located across Australia, as well as in Asia and the Pacific.
- Consulting: As well as Microsoft Dynamics, we provide report writing and data analysis solutions, including Management Reporter and FRx, Jet Reports, Crystal Reports and SQL Server services.
- Results: We apply our Dynamics expertise and business and accounting knowledge to achieving significant and tangible business benefits for your organisation.
- Satisfaction: At Seqola we work towards ensuring that all of our customers' needs are met and that they reach their organisational goals.

Microsoft Dynamics 365 is a complete business management solution that offers cost effective financial and operational processes including financial management, manufacturing, reporting, supply chain management, and project accounting. Microsoft Dynamics works with other Microsoft Applications such as Microsoft Office 365 and Microsoft SQL Server. Microsoft Dynamics is customisable and adaptable to suit the needs of most medium and growing businesses.
